

Thor: Ragnarok released into theaters on November 3, 2017 and has been a phenomenal success for Marvel Studios. The film is now available to stream both in its original English as well as various other languages through Netflix. In this article, we will be taking a look at the different languages that have been made available for those who want to watch Thor: Ragnarok now or later. The mission of this article is to assist those who are looking for a way to experience Thor: Ragnarok with a foreign language, know beforehand if they're going to enjoy watching it in their native tongue, and understand what they're getting into before they start streaming it. For the purpose of this guide, we will be focusing on the languages available through Netflix, but it should be noted that other streaming services may have the same amount of subtitles depending on their subscription. As we've mentioned in the introduction, Thor: Ragnarok is available through both Netflix and Amazon Video. Within these two services alone, there are many different ways one can watch Thor: Ragnarok and in this article we will take a closer look at each and every one and break it down in detail. We will even provide specific information when needed to help you decide whether or not to watch Thor: Ragnarok when you don't know whether or not your native language is going to translate well with the audio. As the newest film released by Marvel Studios, Thor: Ragnarok is packed to the brim with references to other films, television shows, comics, and even real-life locations. This means that there are going to be many non-English speaking viewers surprised by certain moments in Thor: Ragnarok. We hope this guide will help you out.
